The Truth Well Put.

The Columbus Erquirer has issued a th edition with extra, the latter part of which we have received. It is filled with business, interesting reading matter, sketches of Columbus and its erchants, and is most beautifully rinted. In fact, a year ago we had occasion to applaud in exceptionably high terms, the great merlt, editorial bility and taste in arrangement of the Enquirer, and our opinion to-day is the same. The citizens of Columbus have as much reason to be proud of their paper as the people of any city in Georgia. But we set out with another object in view, and that is to reproduce the following extract from an editorial in the

Enquirer: The one great object with us now is more dailies than the combined dailies and weeklies published in all the states and weeklies published in all the states that constituted the late confederacy. We cannot deny this, but the southern people give a large support to northern journals while they neglect their own impoverished, hand-to-mouth papers. We cannot deny that, with all the boasted loye of section, that the southern people have the had and ruinous habit of incoring have the bad and ruinous habit of ignoring everything made at home, and supporting everything made at a distance. The time has come to stop this mad policy and to make themselves self-sustaining

if they would be prosperous.

It is not for the want of editorial ability that southern papers fail, but for the want of home support, and the villainous credit system that prevails in this land, added to the fact that yery many men with limited views would pay an undertaker with more cheer than they would render to a printer his little dues. This \$490 60, or an average of \$98 12 per acre.

We endorse the above as quite true Some time since the managing editor of tures of the Thomasville fair was the THE CONSTITUTION had occasion to asaward of the premium for the best bale certain as nearly as possible the number of newspaper subscribers in Georgia, and he was astonished to find it so small. It is a shame to a great state that so few comparitively of its citizens take a news-

The masses will never become intelli gent until they become newspaper readers, and they will never have a flourishing newspaper press until they support it more liberally. The cause of so many journalistic failures in Georgia lies in the fact that the newspapers are far better, more enterprising and more expensive than is warranted by the patronage be stowed upon them. But one great ruinous evil the press can correct. No man who is not willing to pay down the small pittance of a newspaper subscription should not have a newspaper, and the cash rule in this particular would in the end not only save a heavy item of loss, but vastly benefit the people themselves in properties were which we need to any extent at the advance and the market closed dull. selves in numerous ways, which we need not enumerate.

A Savings Bank.

One of the most urgent needs of At lanta at the present time is an institution that will take care of the pence of those who have only small sums to deposit. We need a bank that will take deposits from fractions of a dollar upwards, and pay its against each other for a month. We did recently suggest something about one "Marcel's Potion," but it was entirely in a most fraternal spirit of inquiry directed to the Atlauta News. Then again we did This institution should be officered and controlled by the very best business men in the city—by men of large means and still larger integrity and patriotism. While it should be condepositors seven per cent, per annum on ducted on true principles of business, it should have at the helm men who will moderate though they may undoubted incline it in favor of those whom it is intended to benefit. We hope a movement of this character will be instituted before the legislature meets, and we further hope example in this particular, and we call the that no man will be granted a place in the organization unless he possesses the confidence and esteem of the entire community; for confidence is very essential

in a bank of this nature. The charter for such an organization is another point that needs particular attention. It should fairly bristle with all the safeguards and provisions against risks that the experience of older cities tells us is wise and prudent The records of other states are full of excellent charters, and the very best and most conservative of them all should be taken as a model. If an organization of this character be started, it would straight way command the support of every thoughtful and patriotic citizen, and o the press, and of all who believe with Ben Franklin, that "a penny saved is a penny earned."

It is hardly necessary at this late day itility of savings banks in promoting deposits. In our new career of economy and industrial enterprise we need such a bank above almost any other want. It would keep many dollars among us that would otherwise go away, and would powerfully promote the qualities that make us healthier, happier and richer.

out resorting to any legal rights they may leem themselves possessed of. 1t will be money in their pockets to accept the ituation without a struggle, for if present legislation is not ample to protect the lives of our people, other acts will be asked for that will make it so. And again, and our people will cease to shudder as they run the gauntlet of the locomotives.

Contracts opened the week very active with large sales at an advance of \(\beta_8\) of a cent., but closed dull and lower. Sales for the week 175,000 bales, at an advance of 1.8 over last week's prices. There did not seem to be any special reason for an advance, but the spots or shorts, in contracts, became scared at the rise in gold and the large sales in Liverpool, and began covering. This caused the holders of spot cotton began covering. This caused the holders of spot cotton to demand higher prices, and in a few instances to obtain them;

LIVERPOOL.
This market has been very active, with large sales at an advance of one eighth of a cent. These very large sales might have led to a considerable rise of the price, but to the surprise of most persons the Bank of England raised the rate of interest to five per cent. on Monday and the exports from this country to Liver-pool are very large. These reasons caused shippers to offer their stocks so freely that but little advance was obtain

we see no grounds to anticipat any material advance upon present prices be considered.

STOCK IN LIVERPOOL.

The stock of American cotton in Liver ol is 65,000 bales larger than this tim st year, and about twice as large as any year since the war. The stock will be counted the last week in December, an it is generally believed that the total amount of cotton on hand will be at lea-150,000 bales over the estimated stock and this is one cause of the price refus o advance, when the demand is large t has been this week. ESTIMATE OF CROP.

Our estimate of the crop is over for millions, and we confess we were considerably surprised this week, when we received a circular issued by F. A. Hirsch, of New York, dated this month, in which he says: "I will venture the assertion that this year's cotton crop will not exceed 3,250,000 bales, and may be less than 3,000,000 bales." His ndation for this small estimate, is his cilef in the correctness of the bureau eport for September. To give our enders some idea of how that report was made up, and how it may mislead some poor men, we give an extract from a letter from one of the bureau agents in southern Georgia. We know him to be honest and reliable, and can only account for his great mistake in his report to the It is hardly necessary at this late day in the world's civilzation to speak of either the importance of economy or the the planters when they saw their cotton plants burning up under the fierce rays savings among those who would otherwise squander them in useless luxuries.
The man, woman or child who breaks
the ice by depositing one dollar will be

'I will now tell you of my own crop. I

planted forty acres of thin or poor land
and hoped by good cultivation and a liberal use of fertilizers to make twenty
bales. After the August drouth I thought of that August sun. But to the extract apt to follow it up with others while his or her health remains good, and there are ample and safe facilities for making small denoting. In our new carear of commy out 16 bales averaging 500 pounds."

Now suppose other men were deceived in like manner, and their crops turn out 50 per cent. better than the August re-

port. The total crop, instead of being 3,000,000, will be 4,500,000 of bales. UNITED STATES BONDS.

PROSPECTS.

The price may continue to rise in this city until it is on a parity with the seaports. But outside of this place we can not see any good reason for an advance. Neither do we expect much more decline for the present at least. We have repeatedly said in conversation that we exwhen the flagmen are in place they should be held to a strict accountability; and after awhile, perhaps, the divided parts of the city will be considered one whole as low next February as it is now. But even this depends upon the actual amount of the crop. If it is only 3,000,000 bales there will be a sharp rise of five cents a pound; if 3,500,000 a rise of three cents and if 4,000,000 or over, there will not be

Editors Constitution:—Yesterday morning dawned gloomily, a slow, cold, drizing rain being driven into the pedestrian's face by a brisk, northerly wind.
Overcoats, rubbers and umbrellas were brought into requisition, and every circumstance conspired to give the day the appearance of midwinter. About nine occors were the constant of the control of the contr o'clock we saw a great many people go-ing into the hall of the Young Men's Christian association, and having nothing better to do we followed them. The meeting was convened because of the governor's proclamation, and the servi-ces consisted of prayer and thanksgiving. At different hours through the day there were services in the various churches of this city, and indeed the proclamation of this city, and indeed the proclamation of Governor Smith was as generally observed as could be expected considering the inclemency of the weather. We must, however, complain of the fact that business was in no way suspended during the day, as comparatively few stores were closed. The only secular demonstration we saw was a base and letter that the control of the c 2,720

The only secular demonstration we saw was a bass and kettle drum, and a fife—all manipulated by "cullud gemmens"—pursued, of course, by a disorderly procession of black ragamuffins. The genuine thanksglying was done in the religious organizations, carrying out the true purpose of a day of thanksglying.

While the cere mony was being performed we were very forcibly remined of the inimitable Ned Brace and the little man in the funeral procession. We do not mean to say that the pedding reminded us of the funeral reaces ion, but while the minister was solemnly and with measured voice reading to the pair at the altar—some ludicrous cir cumstances transpired in the back par of the church so as to convulse with laughter all those sitting near, and thus while in front all was solemnity, in the back part of the church all was liberty

The animal ran toward Ninth street and struck the carriage of Hon. Wm. Crutchfield, about in front of Vance & Kirby's, near Eight street, throwing Mr. Crutchfield's daughter out a the carriage, but did not hurt her. The efforts of the occupants of the buggy to check the horse, turned him on the side walk at Vance & Kirby's, when Col. Paralyzed.

We regret to state that Colonel John We regret to state that Colonel John B. Weems, judge of the county court, had an attack of paralysis Thursday morning, affecting his left side very seriously. The judge arose from his bed about one o'clock in the morning, and in walking across the room he stumbled against a cushion and fell to the floor. He required the assistance of his wife in getting back to bed, but he apprehended nothing serious, as he imagined that he was only stunned by the fall. In arising in the morning his foot became entangled in the mosquito bar, and he ran a few in the mosquito bar, and he ran a few steps to catch hold of the bureau to pre-vent another fall, and struck his side a

The Watkins Troupe.

Another fine andience greeted this popular troupe last evening. The selection of the play was unfortunate. When the public has once seen the peerless Jefferson in his masterpiece, Rip Van Winkle, he is a bold man who dares to take upon his shoulders the rife of the jolly Dutch hunter. Still Mr. Watkins made the attempt, and not without success. His performance was truly good, in parts, fine. He is an actor of undoubted talent, and has given four nights of enjoyment to the Atlanta public.

doubted talent, and has given four nights of enjoyment to the Atlanta public.

Little Amy Lee was just as charming as ever. Rose Watkins did not appear. Gretchen was finely rendered by Miss Florence Jefferson. She evidently has a will of her own and makes an impression wherever she appears. The other characters were very well presented. Mr. Wilks' Von Beekman was highly creditable.

We hope to see this troupe in our city again. Atlanta has shown her appreciation of their performances by giving them what a theatrical troupe seldom obtains—a well filled house for four consecutive nights.

Democratic Victory.

In most, if not all, the southern states and adicial rule had paralyzed the healthy action of every part of the body politic—the whole people. Such rule had acted upon them like a death-dealing poison. They had become morose, reticent, and almost entirely hopeless. All their vital forces were well on the remarkable were growing despondent almost to a point of desperation, even contemplating as a last or dernile resort, suicide—political suicide—bylatvocating Grant for a third term. They had become as one who had lost all friends and believed the hands of the balance of the world were turned and stall friends and believed the hands of the balance of the world were turned and sympathy for them. But what a wond derful reaction has taken place. What a clearing away of the clouds. A brighten ling of eyes, elasticity of step and hope spring to life again. The very heavens are lighted up and the valleys made to ring with the eloquent outpouring of rejoicing, praise and thanksgiving. Love and hopers would then be thrown out of employment, some hope, some sympathy and chance, left for them. Suicide is forgotten. The very thought is repugnant amid the shouts of joy and the buoy arey of hope. Union and prosperity in the great union family exists one more. I can not refrain from noting just here what a remarkable similarity does this democratic victory and its effects on the body politic of the south bear to the action of Dr. S. B. Collins' Painless Opium Antidote, Radical doctors and other radicals may try intimidation, but head them not, and victory is yours, and lassity ing. THE AIR-LINE RAILROAD. MORE HOUSE RORRING. 23 in Money and a Watch Gone L. P. Grant Appointed Receiver

Present Attitude of the Road.

The last move, for the present at least, in the Air-line railroad fight, took place before his honor Judge Hopkins, yesterday. This was the appointment of a receiver for that portion of the road lying in this state. As had been announced in his decision delivered Friday, Judge Hopkins allowed the parties that night to make a selection of a suitable person to receive this most important appointment. This they failed to do. In fact no negotiations at all were carried on between to this end. The complainants, that is Mr. P. A. Wellford and those with him, as they had stated in open court, wanted President Buford appointed receiver. He was objectionable to the with him, as they had stated in open court, wanted President Buford appoint-ed receiver. He was objectionable to the Hoyt party, as savoring too much of a bondholder, and while they were willing to have any receiver provided he be a disinterested outsider, they were not willing to accept Mr. Buford; consequently when the court opened yesterday, neither side had any nominations to make. -No meat in the city yet.

Col. L. P. GRANT APPOINTED.

This being the condition of affairs,
Judge Hopkins decided to make the
selection of a receiver himself,
and accordingly announced to
the parties that his choice had fallen
upon Col. L. P. Grant. Both parties
assented to the nomination of the court.

More Commissioner's Trials.—James Aldeock, Dock Elden, Junius Williams and Scott Moren, etitizens of Walton county, were brought here yesterday under arrest for an alleged violation of the enforcement act. The warrant was sworn out as usual by a negro. His name is Charles Malcomb. We have not seen this warrant, and hence do not know what specific act of violation is charged against them. We learn that the darkey swears that they came upon his place in disguise and ran him off, but injured neither himself or his family. The warrant was sworn out on the 22nd of October, but was not served until Friday. Commissioner Smith set the case for a hearing before him on Monday afternoon at two o'clock, and in the meantime the prisoners remain in the custody of an officer. Messrs. Hillyer & Bro. have been retained for the defense.

Miller & Bro, have been retained to the defense.

Messrs. Ambrose Williams and Henry Booyer, of Hogansville, gave bonds of \$500 each yesterday before Commissioner Buck and were discharged from custody. Henry Bustion, the negro prosecutor, by request of Judge Bigham of the defense, was held in a recognizance of \$50 to appear against them. Thus ends for the present this case. ----

THE BARNESVILLE BLUES.—The Barnesville Blues will soon be en regle. Their uniform is made of cadet gray cloth manufactured by the Concord mills. The coats for the privates are trimmed with blue broadcloth, with three rows of Georgia staff buttons in front; for officers gold lace is substituted for the blue cloth. The pants are of the saue material, a blue stripe one inch wide running down the seam. The uniforms are being made in this city by Messrs. Marcus & Dedrirt, No. 5 Marietta street, and are handsome and well made. Messrs. M. & D. have fall and winter styles of the Concord goods which they are prepared to make up at short notice. Success to the Barnesville Blues.

In answer to many inquiries we shall in a few days present a minute description of both our pianos. We shall simply say now that the grand square Chickering purchased of Guilford, Wood & Co., was sent to Atlanta by the manufacturers expressly for the state fair, and is an exquisite instrument, for which we paid one thousand dollars. The premiums awarded to it (as the best and finest) are attached to the plano.

Our six hundred dollar plano, bought of Turner, Braumuller & Barth, is one of great beauty, and has elicited much admiration from the ladies. Mackie has just painted upon it in beautiful style and finish the words:

ATTANTA CONSTITUTION PRESENT, DECEMBER 31st, 1874.

The same words are also painted upon the Chickering piano. The public, and especially the ladies, are invited to inspect both pianos and ascertain their great beauty and value. We also invite inspection of our

It is a rule in trade to always invest in It is a rule in trade to always invest in that which can make us the most money. If our merchants here can buy this cheap western flour and sell it for the best, at the highest price, then our Atlanta millers, according to that rule, in order to keep moving, will also have to learn the art of making choice flour out of cheop poor sing, so that merchants can buy from us without going west.

There is always one thing certain, that when flour is offered as the best, at a price below what the best can be made for, that the flour so offered is either obliged to be sold, or else has been manufactured out of inferior stock.

Our Atlanta millers ask no exclusive protection. They seek no reduction in rates of freight per pound on wheat from the west, below a fair rate on flour per pound.

They are willing to pay as much freight on 218 pounds of wheat as it costs to ship 218 pounds of flour—the actual, or average weight of a barrel of flour when packed.

If we can be protected against discriminations in rates of freight advantageous to the western miller, and detrimental to us, then we ask no more; as our protection against inferior or adulterated flour, depends on ourselves.

against inferior or adulterated flour, depends on ourselves. If we buy nothing but good stock, free from all damage or must, then our flour will be uniformly good, and we will all ways have a liberal share of patronage. If we avoid all adulterations of good wheat with inferior; if we refuse to dress up inferior flour and pass it for good, it will establish a standard for integrity that no tricks or devices in trade can long compete with.

The St. Louis Globe notices a healthy feel-

ring prevalent in all branches of the local money market of the last week. At the banks business was quiet brisk. Rates of discount, however, are unchanged, and first class business paper is being readily placed at 8 to 10 per cent, per annum.

DR. CALHOUN'S LIVER PILLS.

AM engaged in the manufacture of the Celebrated Family Medicine, known as the Calhoun Liver and Anti-Bilious Pills, under the supervision and assistance of Dr. Calhoun himself. This Pill has been in use for the last 35 years, and has taken prece; dence over all other Family preparations by all that have used them. Thousands would certify to their great value if necessary. One fact should supercede any amount of certificates, and that fact is this: Dr. Calhoun has been physician to the Fulton County Prison for over seven years, when the number of prisoners ranged from 20 to 70, laboring under all the diseases incidental to this climate. With but few exceptions they have all been treated with this Pill, and astonishing to say during that long period not a solitary death occurred under his treatment. This fact is worth any amount of testimonials.

I am now prepared to fill orders from druggists, merchants and others. All orders sent me shall receive prompt attention. There is no type of FEVER, DYSPEPSIA, DIARRHUGA, DYSENTERY, RHEUMATISM, CHOLERA MORBUS, BILIOUS, MESS and SICK HEADACHE, or other diseases of a Southern climate, but yield readily to this preparation.

For sale by all druggists.

At the Late Annual State Fair.

The Georgia State Agricultural Society

HELD AT ATLANTA,

AWARDED Stewart, Austin & Co.,

HIGHEST

BEST GRADES OF FLOUR.

WE have witnessed a great change in public sentiment favoring the more substantial and nutritive grades of flour, since the late meeting of the Agricultural Society at Stone Mountain; and no pains have been spared by us to meet the very laudable demand which has sprung up for PURE, HEALTHY, BRAIN INVIGORATING FLOUR.

Our FFF has been improved in nutrition by imparting to it more of the gluten and phosphates; whilst the sample remains pure and bright.

Our FF has nothing in the market equal to it for the price.

Our FAMILY has been improved by imparting to it its due proportion of starch. The FFF is a fancy grade and nutrition combined.

The FFF has no superior for life giving properties.

The FFAMILY is a planner grade—of improved body, a shade lower in price than the FF.
